Subject: IE18.1 - I support REimagining Yonge as a Complete Street
Date: Wednesday, November 25, 2020 7:26:03 PM

Greetings to the Infrastructure and Environment Committee members,

I support a vision for Yonge Street included in REImagine Yonge that will see the iconic street redesigned with a complete streets mindset. It needs to allocate public space so that everyone can move about safely and enjoy the city while they do so.

Thank you,
