Vision Zero Grant - by Councillor James Pasternak, seconded by Councillor Mike Colle

** This Motion has been deemed urgent by the Chair.*

** This Motion is not subject to a vote to waive referral. This Motion has been added to the agenda and is before Council for debate.*

Recommendations

Councillor James Pasternak, seconded by Councillor Mike Colle, recommends that:

1. City Council authorize the General Manager, Transportation Services to negotiate, enter into and execute an agreement, with MicroTraffic to participate in the grant program for video near miss analysis on 10 intersections along with high level recommendations to improve safety at those intersections, in the amount of \$12,500 of funding from the Transportation Services approved Capital Budget for Vision Zero, and on such terms and conditions satisfactory to the General Manager, Transportation Services and in a form satisfactory to the City Solicitor.

Summary

The Council approved Vision Zero 2.0 Road Safety Plan update committed to taking a stronger data driven approach to road safety. In line with that commitment and as a cost saving measure, the City of Toronto applied for a grant offered by Aviva Canada Inc. for safety analysis and diagnostics using video near-miss detection at 10 intersections within the City. The City of Toronto is one of the five major Canadian municipalities that have been chosen as successful grant applicants. Transportation Services staff are seeking authority to enter into an agreement to embark on this safety analysis with the grant partners. As a successful applicant, the City is benefiting from \$37,500 of services provided by MicroTraffic paid for by Aviva Canada Inc.

The safety analysis would be provided through the grant program, involving cost-sharing between Aviva Canada Inc. and the City of Toronto. Aviva Canada Inc. would fund 75 percent of the costs associated with MicroTraffic's work (\$37,500) and the City of Toronto would fund the remaining 25 percent (\$12,500).
