**Subject: MM26.9 250 Year Old Red Oak Located at 76 Coral Gable Drive, to be considered at Toronto City Council, Meeting 26, November 25 & 26<sup>th</sup>, 2020.**

Dear Councillors,

I strongly support Option B of Motion MM26.9 250 Year Old Red Oak Located at 76 Coral Gable Drive.

The fundraising efforts to buy the property have gone well but the group needs more time to complete their efforts.

Many of us have marvelled at the size and spread of this magnificent tree, a great example for all Torontonians to rally around for many years to come.

Regards,

Stephen Smith, President  
ISA Certified Arborist  
ISA Qualified Tree Risk Assessor  
FGCA Certified Seed Collector  
Director, Society for Ecological Restoration Ontario Chapter  
Director, Forest Gene Conservation Association of Ontario
