Growth Plan Forecast to 2041 Former Growth Plan Forecast 2013-2020

Completions are units for which all the proposed construction work on a dwelling unit has been performed. Units approved and not yet built are those in development projects that have received at least their first Planning approval. Under review units are those in projects which have not yet been approved or refused and those which are under appeal.

Growth Plan Forecast to 2051 New Growth Plan Forecast as of 2020

Toronto is well on its way to housing the population growth forecasted by the Growth Plan.

Completions are units for which all the proposed construction work on a dwelling unit has been performed. Units approved and not yet built are those in development projects that have received at least their first Planning approval. Under review units are those in projects which have not yet been approved or refused and those which are under appeal.

Estimated Built Units

Forecasted Households 2011 – 2051	495,000
Units Built 2011-2019	127,481
Balance of Units to 2051	367,519
Years to Achieve	32
Required units per annum on average	11,485
