Dear Councillors,

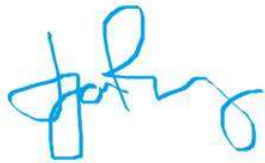

**RE: PH18.2 Creating the Regulatory and Compliance Framework for Multi-tenant Houses
across Toronto**

I was pleased to see this report on the Planning and Housing Committee agenda and am writing to express York University's support for the recommendations made by staff to conduct city-wide consultations on the proposed regulatory and compliance framework.

As has been done in prior consultations pertaining to multi-tenant housing within the City of Toronto, we would request that there be a specific consultation planned for the post-secondary sector so that our community members have the opportunity to provide feedback into this process.

York University applauds steps that the city is taking to recognizing housing from a human rights perspective and the efforts to realize a framework that supports access to safe and affordable housing.

Sincerely,

Ijade Maxwell Rodrigues, MPA
Chief of Government and Community Relations

cc: Councillor Anthony Perruzza
