

Installation of On-Street Accessible Parking Spaces – December 2019 (Non-Delegated)

Date: December 10, 2019
To: Toronto and East York Community Council
From: Acting Director, Traffic Management, Transportation Services
Wards: Ward 12, Toronto-St. Paul's; Ward 14, Toronto-Danforth

SUMMARY

The purpose of this report is to obtain approval for the installation of on-street accessible parking spaces for persons with disabilities.

As the Toronto Transit Commission (TTC) operates transit service on the subject streets, City Council approval of this report is required.

RECOMMENDATIONS

The Acting Director, Traffic Management, Transportation Services Division, recommends that:

1. City Council authorize the installation of on-street accessible parking spaces at the locations identified in Appendix A attached to the report dated December 10, 2019, from the Acting Director, Traffic Management, Transportation Services.

FINANCIAL IMPACT

Funds in the amount of \$600.00 are available within the Transportation Services Division's 2020 Interim Operating Budget.

DECISION HISTORY

This report addresses an ongoing initiative.

The Transportation Services Division receives a number of requests for the installation of on-street accessible parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors' offices.

Designated on-street accessible parking spaces are provided for people with disabilities and/or those who transport them, making it easier for them to find available parking as near as possible to their place of residence or intended destination(s) and reducing the distance that disabled people must walk. Delays in installing these on-street accessible spaces may create hardships for disabled applicants.

COMMENTS

Transportation Services staff have investigated and recommend installation of on-street accessible parking spaces at the locations identified in Appendix A included in this report. The subject streets are served by regular TTC transit routes.

For locations where on-street accessible parking spaces are being established, all applicants are holders of valid Accessible Parking Permits issued by the Ministry of Transportation and each designated space will not result in the loss of more than one on-street parking space for general use.
