RE: All-way Stop Control – Macpherson Avenue and Madison Avenue

Dear Chair and Members,

I am writing to you to request Community Council's support for a motion that is important to the constituents of the Toronto-St. Paul's ward, but one that could not be brought forward by staff due to the impacts of the pandemic on staff redeployments.

Last year, my office received a request to look into all-way stop control or a pedestrian crossover at the intersection of Madison Avenue and Macpherson Avenue. The request was based on the recent construction of a new affordable housing multi-residential building and the increased pedestrian activity around the intersection. Based on a recent study Transportation Services staff determined that an all-way stop control at the intersection is warranted. This installation will enhance safety for all road users, and especially for pedestrians and cyclists, at this intersection.

RECOMMENDATION:

It is recommended that:

1. Toronto and East York Community Council authorize all-way stop control at the intersection of Macpherson Avenue and Madison Avenue.

Sincerely,

Councillor Josh Matlow
Ward 12, Toronto – St. Paul's
