1327-1333 Queen Street East Permit Parking Realignment

Dear Chair and Members of the Toronto and East York Community Council,

I am writing to ask that you support a request for Transportation Services to report on realigning the permit parking area to exclude the development at 1327-1333 Queen from the on-street permit parking program.

The local permit parking area is at 86% capacity. Considering the provision of off-street parking at this development and the current permit parking pressures on local streets, I am asking for your support for this request.

1. Toronto and East York Community Council direct Transportation to report on excluding the development at 1327-1333 Queen Street East from the on-street permit parking program including requiring the applicant to state in all marketing materials, condominium disclosure documents, and sales agreements that the future owner, tenant, or sublet tenant or any other additional occupant or guest will be prohibited from applying for an on-street parking permit and the building will be excluded from any on-street permit specified area.

Sincerely,

Paula Fletcher
