| completed and is currently being updated based on the latest ATC project status. Still awaiting Eglinton Crosstown LRT updated schedule  • Workcar Program and ATC implementation timeline . Mitigation: Completed coordination with Subway Infrastructure and Rail Cars & Shops for required workcars for Phase 5 implementation Continue discussions with stakeholders for post revenue support to facilitate future workcars into the ATC system.  • COVID-19 Impact:  - Limited TTC and Contractor staff due to continuing restrictions which may impact design progress, testing and commissioning, construction activities and/or closures. Mitigation: Continue monitoring resources, availability and potential impacts due to staff self-isolation. The contractor is closely monitoring their Engineering Center in India and continuously reviewing backup plate for critical activities. The project's critical path has not been impacted to date.  - Supply chain delays potentially impacting construction activities: Construction impacted by material shortage delaying or postponing installation activities. Mitigation: The majority of the construction work has been completed. Supply chain risk is now limited to defect and deficiencies correction prior to revenue service. The project's critical path has not been impacted to date continue monitoring.  • Closure cancellations potentially impacting project completion. Mitigation: Required closures have been identified for 2021 and 2022. Continue prioritization and planning process.
