To: The City of Toronto Animal Services West Shelter

Hello dear,

My name is Mohammed Hamed Haress Shinwari, I am a person with both mental and physical disabilities. I have a dog and his name is Rocky. He is a very friendly dog and just an incident happened that he was with the second cousin of my son. Rocky launched on a lady when she was jogging from behind and stepped on Rocky's paw. Rocky bit her. My family and I are so very sorry for what have happened. We tried to explain the situation to the animal control Officer Patrick Palubjak and said that he must listen to the lady who is the victim and not us. We believe this issue could be address by appeal so then the judge would listen to us as well. Rocky has no one to speak in his behalf other and us. He also suffers like me with the muzzle. When I see him with the muzzle it makes my depression worsen. We hope to appeal this case and receive a fair judgment.

Best regards,

Mohammed Shinwari
