To Whom it May Concern,

As the owner and operator of the Toronto Event Centre and a long-time tenant of Exhibition Place, we were excited to hear the news of a second hotel tower and 7,000 seat-theatre coming to the grounds. We are supportive of any new development that brings more events and people traffic to the site. We also believe that this combined project will make Exhibition Place as a whole, more marketable to larger events which should be good for all the venues at Exhibition Place.

We certainly support the development and opening of these two facilities within the project.

Sincerely,
