**Subject:** GTHA EV Charging Fund – Application to the Zero Emission Vehicle Infrastructure Program

**File Number:** ZA-334, Toronto Atmospheric Fund

Dear Bryan Purcell,

I am pleased to advise you that your application dated December 10, 2020, for the above mentioned project, has been conditionally approved for funding consideration by Natural Resources Canada (NRCan), subject to the successful negotiation and execution of a written Contribution Agreement.

Until a written agreement is signed by both parties, no commitment or obligation exists on the part of NRCan to make any financial contribution to your organization's proposed project.

Please note that expenditures incurred between the date of this Letter of Conditional Approval and the date on which a Contribution Agreement is signed by Canada fall outside the Eligible Expenditure Period and they are not eligible for reimbursement by NRCan.

In the coming weeks, we will prepare a draft Contribution Agreement for your review. Please note that in accordance with the directives you will have six months to negotiate and sign a Contribution Agreement. NRCan will not accept any changes to the provisions of our standard template agreement unless your legal counsel provides a legal rationale for the changes. We will only consider changes in cases where the existing provisions create a legal impediment to you entering into the agreement. Minor changes can be made to the details of the schedules in the agreement, namely the Statement of Work, Eligible Expenditures, Budget and Reports, in order to ensure they properly reflect your project proposal.

Canada 

I trust this letter clarifies the status of your organization's funding request under the Zero Emission Vehicle Infrastructure Program and NRCan's requirements for the expenditure of funds under this Program.

Should you have any questions or concerns with respect to the Program, please contact Louise Tanguay at [louise.tanguay@canada.ca](mailto:louise.tanguay@canada.ca).

Yours sincerely,
