Re: Item EX20.3 City of Toronto Environmental, Social and Governance (ESG) Annual
Performance Report

Dear Mayor Tory and Councillors,

We congratulate the City on the release of its first Environment, Social and Governance Report. Performance reporting and metrics on these topics is critical to monitoring and ensuring progress.

We are writing to express our support for the deputation by ProtectNatureTO and Toronto Field Naturalists, which recommends a dedicated section in next year's report for biodiversity metrics and nature indicators. We support the metrics they have suggested.

Yours truly,
