Re: Resignation as the Board of Health's representative on the Association of Local Public Health Agencies (ALPHA) Board of Directors and Board of Health Section

Dear Chair Cressy and Toronto Board of Health Directors,

Effective Monday, September 27 I am stepping down as the Toronto Board of Health's representative to the board of the Association of Local Public Health Agencies (ALPHA) and the Boards of Health Section Executive, a role I have held since February 2019.

I am thankful to both the Toronto Board of Health and to ALPHA for the opportunity to serve as a member of the ALPHA board and the Boards of Health Section Executive during this critical time for public health in our province. Advancing our board's commitment to health equity was a key priority for me throughout this time.

I look forward to supporting our next ALPHA representative as we move forward into new conversations about the important role of local public health in our province, in the COVID-19 period and beyond.

With thanks,

Kate Mulligan
