Subject: Item 26.16 - TransformTO
Date: December 1, 2021 7:55:36 PM

Dear Secretariat,

With regard to the above subject, I would like to offer my time to speak to the IEC tomorrow, Dec 2, 2021.

For context, I am the CEO of a renewable finance company located in Toronto. I typically deal with utility scale projects but more recently I have started to evaluate a strategy that would help to address energy inefficiencies in Toronto homes and businesses. I am 100% onboard the clean energy transition and know that there are a myriad of solutions that can not only bring emission reduction but also tremendous employment opportunities and economic growth for the city.

I would be happy to make myself available at the convenience of the IEC. My contact details are below.

Best regards,
JP
