Re: MM 35.8 – Funding Support for Wildseed Centre for Arts and Activism

We have just become aware of the proposal to support this project which falls within the boundaries of the Grange Community Association.

We have noted that funds which were ear-marked for the Huron Street Garden (behind the Lillian Smith library) has been identified for transfer.

We wish to point out that follow-up with this group has slipped between the cracks with the change in ward boundaries.

It is our request that the funds promised to the Huron Street garden be retained for that purpose.
