Dear Councillor Bradford:

We are writing to express the support of the Church of the Resurrection for the City's modular housing project at Cedarvale Avenue and Trenton Avenue in our East York neighbourhood, not far from our church building and the homes of some of our members. We commend you for your leadership in helping to advance this project.

Toronto is facing a crisis in homelessness and we must act to care for those most affected. Our faith calls us to care for the poor and those in need. We are a church community that takes this call seriously, and we actively look for ways to be a blessing to our neighbourhood and our City. We are pleased to see this modular housing project being developed in East York to provide housing for up to 64 individuals, and the need is still great. We call on City Council to increase its efforts to address the homelessness crisis in Toronto.

We are committed to actively participating with the whole community in creating a safe and caring neighbourhood, and in welcoming the future residents of this housing complex. We will look for practical ways to do so and welcome your suggestions on how we might best contribute to this modular housing project. We look forward to working with you over the course of its development.

Sincerely

Rev. Julie Burn
