COMMENTS

On February 19, 2021, an application to demolish a dwelling at 276 Scarborough Golf Club Road was submitted on behalf of the owner, Metrolinx.

In a letter submitted requesting the demolition permit, Metrolinx states that it is demolishing the subject vacant dwelling currently located at 276 Scarborough Golf Club Road as an enabling works for the future grade separation (road under rail) of Scarborough Golf Club Road, which is part of the larger Lakeshore East Central Metrolinx project. This project is a multi-location project being undertaken to help increase service and improve safety across the GO Transit Lakeshore East corridor.

Priestly Demolition Inc. is the authorized agent to obtain the service disconnections and cap of all utilities servicing/municipal sewer and water at the property line. Disconnections are underway and are expected to be completed by May 2021, in advance of demolition of the structures.

The building was acquired in fall 2016 and has been vacant since acquisition.

The application for the demolition of the dwelling has been circulated to the Heritage Preservation Services, Urban Forestry and the Ward Councillor. The existing building is not designated a historical building.

The demolition application is being referred to the Scarborough Community Council because the building proposed to be demolished is a residential building and there are no replacement building permits to be issued. In such cases, Chapter 363 Article II of the City of Toronto Municipal Code requires Scarborough Community Council to issue or refuse the demolition permit.
