

Residential Demolition Application – 463 Guildwood Parkway

Date: March 24, 2021
To: Scarborough Community Council
From: Deputy Chief Building Official and Director, Toronto Building,
Scarborough District
Wards: Ward 24 - Scarborough–Guildwood

SUMMARY

This staff report is about a matter for which Scarborough Community Council has delegated authority from City Council to make a final decision.

In accordance with Section 33 of the Planning Act and the former City of Toronto Municipal Code Ch. 363, Article II “Demolition Control”, the application for the demolition of a dwelling at 463 Guildwood Parkway is referred to the Scarborough Community Council to refuse or to grant the application as a building permit has not been issued for a replacement building.

If the Scarborough Community Council grants issuance of the demolition permit, it may impose conditions if any, to be attached to the demolition permit.

RECOMMENDATIONS

The Deputy Chief Building Official and Director, Toronto Building, Scarborough District recommends that the Scarborough Community Council:

1. Refuse the application to demolish the residential building at 463 Guildwood Parkway because there is no permit to replace the building on the site; or
2. Approve the application to demolish the residential building at 463 Guildwood Parkway without conditions; or
3. Approve the application to demolish the residential building at 463 Guildwood Parkway with the following conditions:

- a) that a construction fence be erected in accordance with the provisions of the Municipal Code, Chapter 363, Article III, if deemed appropriate by the Chief Building Official;
- b) that all debris and rubble be removed immediately after demolition;
- c) that sod be laid on the site and be maintained free of garbage and weeds, in accordance with the Municipal Code Chapter 629-10, paragraph B and 629-11; and,
- d) that any holes on the property are backfilled with clean fill.

FINANCIAL IMPACT

The recommendations in this report have no financial impact.

DECISION HISTORY

The City of Toronto Municipal Code [Chapter 363, Article II “Demolition Control” Subsection D (1)] requires that the application be referred to Scarborough Community Council for consideration if no building permits are issued to erect replacement buildings on the property.

COMMENTS

On January 6th, 2021, an application to demolish a dwelling at 463 Guildwood Parkway was submitted on behalf of the owner, Toronto and Region Conservation Authority.

In a letter submitted requesting the demolition permit, the owner states that the subject dwelling currently located at 463 Guildwood Parkway is located within a long-term erosion hazard area as determined by a slope stability analysis performed by geotechnical engineers retained by TRCA from Terraprobe Incorporated in 2017. Stabilizing the Scarborough Bluffs to address this hazard is a costly endeavour given the engineering requirements. TRCA opted to acquire the at-risk property from the landowner with the intent to demolish the residence and leave the lot as vacant greenspace. This will allow the Scarborough Bluffs to continue to erode and self-stabilize without impacting any infrastructure in the area.

All services to the property are disconnected. Municipal sewer and water will be disconnected and cap at the property line. The residence has been vacant since September 2017.

The application for the demolition of the dwelling has been circulated to the Heritage Preservation Services, Urban Forestry and the Ward Councillor. The existing building is not designated a historical building.

The demolition application is being referred to the Scarborough Community Council because the building proposed to be demolished is a residential building and there are no replacement building permits to be issued. In such cases, Chapter 363 Article II of the City of Toronto Municipal Code requires Scarborough Community Council to issue or refuse the demolition permit.

Site and Surrounding Area

The subject property is located south west corner of Guildwood Parkway and Morna Avenue west of Morningside Ave. The subject property is zoned (RD) Residential Detached (f15.0; a557) (x129) in City-wide Zoning By-law 569-2013 and zoned as Single –Family Residential (S-5-23-30-35-44-49-64) in Guildwood Community Zoning By-law.

Ms. Shavonne Henderson
Zoning Examiner
Toronto Building
City of Toronto

Dear Ms. Henderson,

Re: Toronto and Region Conservation Authority (TRCA) demolition of residence at, 463 Guildwood Parkway, in the City of Toronto.

In response to your letter requesting the reason for the demolition permit requested prior to the building permit being issued, information regarding city services provided to the existing building, if there is tenant or other still residing in building, and information of proposed redevelopment, please see below.

The dwelling currently located at 463 Guildwood Parkway is located adjacent to a long-term erosion hazard area as determined by a slope stability analysis performed by geotechnical engineers retained by TRCA from Terraprobe Incorporated in 2017. Stabilizing the Scarborough Bluffs to address this hazard is a costly endeavour given the engineering requirements, so TRCA opted to acquire the at-risk property from the landowner with the intent to demolish the residence and leave the lot as vacant greenspace.

All services to the property are disconnected/municipal sewer and water will be disconnected and cap at the property line. The residence has been vacant since September 2017. The intent to leave the lot as vacant greenspace and not redevelop will allow the Scarborough Bluffs to continue to erode and self-stabilize without impacting any infrastructure in this area.

Please let me know if you have any further queries or concerns.

Sincerely,

Brandon Hester
