Dear Chair and Members of Toronto and East York Community Council,

Re: Speed Limit Reduction – Clinton Street, between College Street and Harbord Street

This item is about a matter that Community Council has delegated authority to make a final decision, provided that it is not amended.

Clinton Street, between College Street and Harbord Street is classified as a collector roadway, and generally operates one-way northbound, except for a small section between College Street and a point 107 metres north which operates two-way. This section of Harbord Street has traffic calming and has a posted speed limit of 30 km/h.

After a further review by Transportation Services staff, it was noted that there is an inconsistency with the by-lawed, and posted speed limit, on this section of Clinton Street given the existing traffic calming measures. This by-law inconsistency will be resolved by the adoption of the recommendation noted below.

Recommendations:

1. Toronto and East York Community Council reduce the speed limit from 40 km/h to 30 km/h on Clinton Street, between College Street and Harbord Street.

Thank you,

Councillor Mike Layton
Ward 11, University-Rosedale
