Toronto and East York Community Council
Toronto City Hall
100 Queen Street West
Toronto, Ontario
M5H 2N2

Dear Chair and Members,

**RE: Speed Bump Installation on First East-West Public Lane South of Eversfield Road,
West of Dufferin Street and the First North-South Public Lane East of Boon Avenue, North of
Rogers Road**

BACKGROUND:

Recently, my office has heard from concerned residents abutting the first east-west public lane south of Eversfield Road, west of Dufferin Street regarding vehicles speeding and racing on the laneway. On a few occasions this has resulted in cars losing control and causing significant damage to properties that back on to this laneway.

In 2017, prior to my representing the area, a traffic study was conducted to determine whether speed bumps were warranted on both the east-west and north-south sections of the public lane. The criteria were met in both cases, but no additional action was taken at the time.

Because of these reports and having consulted with Traffic Operations, I am requesting that speed bumps be installed as per the recommendations.

RECOMMENDATIONS:

1. Toronto and East York Community Council authorize the installation of speed bumps in the first east-west public lane south of Eversfield Road, west of Dufferin Street, at the locations shown on Drawing 421G-3956, dated September 2021, from the Acting Director, Traffic Management, Transportation Services, Toronto and East York District.
2. Toronto and East York Community Council authorize the installation of speed bumps in the first north-south public lane east of Boon Avenue, north of Rogers Road, at the locations shown on Drawing 421G-3959, dated September 2021, from the Acting Director, Traffic Management, Transportation Services, Toronto and East York District.

Thank you for your consideration.

Sincerely,

Ana Bailão
Deputy Mayor
Councillor, Ward 9 – Davenport
