Toronto and East York Community Council
City Hall, Committee Room 1
100 Queen Street West
Toronto ON M5H 2N2

Dear Chair and Council Members,

RE: Adding a Traffic Light at the Shuter and Sackville Intersection

A petition was submitted to the City of Toronto with over 100 signatures expressing concern for the safety of pedestrians at the intersection of Shuter and Sackville. Shuter Street runs parallel to Queen Street and Dundas Street. However, unlike either of these, Shuter street has no traffic lights or stop signs between Parliament and River, despite having seven intersections in this segment. We are requesting staff investigate adding a traffic light at this intersection in order to improve pedestrian safety and report back about all options to improve safety concerns.

Surrounding neighbours and stakeholders such as the local Toronto District School Board Trustee are in support of this motion to improve safety conditions at this intersection through the installation of a traffic light.

RECOMMENDATIONS:

It is recommended that:

1. The Toronto and East York Community Council direct staff to report back by Q1 2022 on the feasibility of installing a traffic control signal at the Shuter Street and Sackville intersection.

Respectfully submitted,

Councillor Kristyn Wong-Tam

Ward 13, Toronto Centre
