Dear counsellors,

I send greetings from the comfort of my downtown condo near “Toronto the Good’s” (we are still that, right?) financial district to voice my support for funding menstrual and incontinence supplies for our unhoused brethren.

Whatever our ideological or fiscal philosophies, I think it behooves us to find some way to afford our fellow citizens this small measure of human dignity. If we can’t do that, what is all our “success” for? I think we would all want the same in their situation. In fact, “they” are **us**. Let’s do it on Monday for all of us!

With gratitude for your principled service and compassion,

Dennis
