RE: PH32.9 Toronto Heritage Survey Phase One and Heritage Planning Process Update

Dear Mayor John Tory and Councillors:

The North York Community Preservation Panel would like to indicate its strong support for the Toronto Heritage Survey. An accurate assessment of heritage resources is necessary for effective planning and for the preservation of our City's heritage.

All too often, heritage matters are addressed in a "fire-fighting" mode and the results are not ideal. The heritage survey will help to provide transparency and clarity about which properties are of heritage interest.

Thank you for your support of this important endeavour.

Yours truly,

Alex Grenzbach

Interim Chair, North York Community Preservation Panel
