

April 26th, 2022

Darnel Harris
Executive Director
Our Greenway

Dear Darnel,

It has been a pleasure continuing to learn about the work you and your team do at Our Greenway, including your work with the City of Toronto to promote strong mobility corridors in Northwest Toronto.

Developing the community conditions under which alternative modes of transportation and active mobility can thrive has been a consistent source of feedback during our id8 Downsview public consultation process and Northcrest Developments is happy to support Our Greenway's efforts to do the same.

We look forward to our ongoing discussions with Our Greenway and hope that our mutual efforts might be coordinated to help build a better mobility future for existing and future residents of the Downsview area.

Sincerely,

Christopher Eby
Executive Vice-President,
Corporate & Public Affairs

Northcrest Developments
