Dear Mayor Tory and Councillors:

North Rosedale Residents Association has been asked to support Toronto Heritage and the protection of the heritage site at 95 St. Joseph Street. Please consider this our request to protect the heritage status of the Brazilian Seminary as previously approved on March 9, 2022. We ask you to listen to the expert opinion of the Toronto Preservation Board who could not recommend the Amendments Report for this site at their recent meeting of June 14/22.

It is our understanding the community has been working to preserve this building since 2017. The Toronto Preservation Board recommendations must carry value and must be supported by the city. The community has shown up to support and we feel that the protection of heritage in both our area of North Rosedale and throughout the city is critical to a thriving city with robust representative architecture from both the past and present is a mandatory and deserving of your support now and on-going.

Yours Truly,

North Rosedale Residents Association – Heritage Committee
And Alexandra Jenkins & Kathy Falconi – Co-Presidents
