

EMAILED

May 3, 2022

Mayor John Tory and Members of the Executive Committee,
10W – City Hall,
100 Queen Street West,
Toronto, Ontario,
M5H 2N2.

Attention: Julie Amoroso, Committee Administrator

Dear Mayor Tory and Executive Committee Members,

Re: EX32.3 - Removal of Harbour Lead Line and Keating Rail Yard

Lafarge Canada owns and operates a number of aggregate, concrete and cement producing and handling facilities within the GTA which also includes our Polson Street cement terminal. Through our subsidiary companies we also supply concrete for Toronto's growth and development through many construction projects.

As a member of the Toronto Industry Network, we are writing in support of TIN's letter requesting that the City retain the existing Harbour lead line and we endorse the request to create a new right-of-way from Leslie Street running west to our Polson facility. Rail was extensively used in the past and Lafarge would explore that option if the opportunity were made available.

Sincerely,

Chris Galway,
