CONFIDENTIAL INFORMATION OR ADVICE

The Canadian Department of Natural Resources, through the Innovation and Clean Growth in the Natural Resource Sectors Energy Efficient Buildings Program, has awarded the City a non-repayable grant in the amount of \$5,000,000 over 5 years for the Deep Retrofit Challenge.

Through the Deep Retrofit Challenge this funding is expected to enable deep energy retrofits of approximately 10-16 buildings across Toronto, with buildings receiving a maximum of \$500,000 each. Maximum contribution will be limited by both total project costs and by gross floor area of the buildings.
