

**To:** Chair and Members of Infrastructure and Environment Committee

**From:** *Councillors Perruzza & Colle*

**Date:** July 7, 2022

**Subject:** Investigating the Feasibility of Emergency Grass Cutting Teams

---

Dear Chair and Members of Infrastructure and Environment Committee,

Residents requests for City staff to address overgrown grass often results in lengthy delays. These issues can often arise in specific problem areas on an annual basis that cannot wait for the regular schedule for seasonal work to be addressed.

I am requesting the Infrastructure and Environment Committee to

1. Request that the General Manager of Transportation to investigate the feasibility of establishing emergency response teams to address grass cutting and tree trimming.

Sincerely,

Councillor Anthony Perruzza  
Ward 7, Humber River-Black Creek

Councillor Mike Colle  
Ward 8, Eglinton-Lawrence
