Notice of Motion

MM47.45	ACTION			Ward: All
---------	--------	--	--	-----------

Continuing Progress on the Road to Vision Zero - by Councillor Brad Bradford, seconded by Councillor Jennifer McKelvie

** Notice of this Motion has been given.*

** This Motion is subject to referral to the Infrastructure and Environment Committee. A two-thirds vote is required to waive referral.*

Recommendations

Councillor Brad Bradford, seconded by Councillor Jennifer McKelvie, recommends that:

1. City Council request the General Manager, Transportation Services report to Council in the first quarter of 2023 on pathways to permit the creation of Community Safety Zones outside of school zones in order to enable installation of Automated Speed Enforcement cameras, including consideration of:

- a. the effectiveness of the Community Safety Zones program in its current form since the previous moratorium was lifted in 2018;
- b. opportunities to accelerate the rollout and expansion of the City's Automated Speed Enforcement program so that a greater number of cameras are available for rotation across Toronto; and
- c. a new set of criteria to be utilized to determining when a Community Safety Zone is warranted as well as a definition of the boundaries that may be set for these zones.

2. City Council request the General Manager, Transportation Services report to Council in the first quarter of 2023 on a plan to update the warrants/considerations used to evaluate the need for All-Way Stop Control, Pedestrian Crossovers and Traffic Control Signals include a required number of potentially preventable collisions that is no greater than one.

3. City Council request the General Manager, Transportation Services, in consultation with any relevant divisions and agencies, to review and report back on safe street improvements that could be implemented as of right during regular maintenance, including but not limited to sidewalk bumpouts, enhanced street crossings, signal timing modernization, and a pathway for how identified measures could be implemented as by default during maintenance projects, road reconstruction, or State of Good Repair works.

Summary

Vision Zero is the commitment to eliminating all traffic fatalities and injuries on our roads. With the goal of fulfilling the City of Toronto's commitment to achieving Vision Zero, this

Motion responds to a number of barriers to the implementation of traffic calming measures and road safety improvements City-wide. In order to put our vision into action, more work needs to be done to bring our policies at the City of Toronto in line with our commitments on road safety.
