Dear Members of Council,

RE: MM42.35

On behalf of the University of Toronto I am writing to express support for Motion MM42.35 .
Facilitating expedited underground road crossings will enable necessary infrastructure upgrades that allow the University to connect more buildings to UofT's district energy system. This is a crucial step towards achieving the University's Climate Positive Campus Plan that will reduce the University's carbon emissions profile to better than net zero by the year 2050.

Sincerely,

Alex Irving
