Subject: Road safety on Euclid Avenue

Dear Scarborough Community Council,

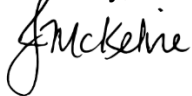

In response to Euclid Avenue safety concerns raised by residents, I am requesting that Transportation Services staff conduct a study of traffic calming measures on Euclid Avenue, from Meadowvale Road to Morrish Road and a study to determine feasibility of an All Way Stop Control at Euclid Avenue and Scarboro Avenue.

I ask that staff report back with proposed measures that align with the principles of the Vision Zero Road Safety Plan. Fatalities and serious injuries on our roads are preventable, and we must strive to reduce traffic-related deaths and injuries to zero.

Recommendation

1. Scarborough Community Council request the Director, Traffic Management, Transportation Services to assess vehicle speed on Euclid Avenue, from Meadowvale Road to Morrish Road and report back with their findings and any proposed traffic calming measures to Scarborough Community Council.
2. Scarborough Community Council request the Director, Traffic Management, Transportation Services to conduct a study to determine if an All Way Stop Control is warranted at the intersection of Euclid Avenue and Scarboro Avenue and report back with their findings to Scarborough Community Council.

Sincerely,

Jennifer McKelvie
Toronto City Councillor, Ward 25 Scarborough – Rouge Park
