

Parking and Display Parking - Various Streets Intersecting St. Clair Avenue West (Delegated)

Date: June 13, 2022

To: Toronto and East York Community Council

From: Director, Traffic Management, Transportation Services

Wards: Ward 9, Davenport

SUMMARY

This staff report is about a matter that Community Council has delegated authority from City Council to make a final decision.

Transportation Services is requesting approval for the installation of on-street paid parking on several local streets intersecting St. Clair Avenue West in Ward 9. The purpose of this request is to add new on-street parking to help support local parking demands and encourage parking turnover. Transportation Services and Toronto Parking Authority (TPA) staff reviewed streets intersecting St. Clair Avenue West to convert locations with daytime time limit parking, overnight permit parking and no parking to on-street paid parking.

A companion report, titled "Pay and Display Parking - St. Clair Avenue West" outlines the required non-delegated parking amendments for St. Clair Avenue West, which operates with Toronto Transit Commission (TTC) service.

RECOMMENDATIONS

The Director, Traffic Management, Transportation Services recommends that:

1. Toronto and East York Community Council enact the parking by-law amendments to establish new on-street paid parking locations as set out in Attachments 2 and 3, to the report dated June 13, 2022 from the Director, Traffic Management, Transportation Services.

FINANCIAL IMPACT

All costs associated with the necessary signage changes are included within the Transportation Services 2022 Operating Budget.

All costs associated with the installation of parking machines will be assumed by the TPA. The delegated recommendations (gross revenue \$5,000), if fully implemented, together with the non-delegated recommendations (estimated gross revenue \$41,500) together are projected to generate an increase in annual gross revenue of up to \$46,500 from the on-street paid parking program.

DECISION HISTORY

There is no decision history.

COMMENTS

TPA is looking to increase paid parking inventory in the area to help ensure there is parking turn over that will help support local businesses. TPA has worked with Transportation Services to identify additional on-street paid parking spaces that could be added in the area.

Transportation Services and TPA staff reviewed converting locations of existing daytime time limit parking, overnight permit parking and no parking to paid, on-street parking. The review considered parking areas of high demand that are functionally safe, appropriate, and economically viable. All locations identified in this report are located a short distance from St. Clair Avenue West. On street locations that are licensed with overnight permit parking, permit holders will be exempt from having to pay during the daytime periods when the machines are in effect.

Staff determined that it is feasible to install on-street paid parking at the following locations:

- Blackthorn Avenue - West side, north of St. Clair Avenue West
- Cloverdale Road - West side, north of St. Clair Avenue West
- Hounslow Heath Road - West side, south of St. Clair Avenue West

The proposed amendments will result in approximately 10 new on-street paid parking spaces and will replace unpaid, one-hour time limit parking that currently operates from 8:00 a.m. to 6:00 p.m., Monday to Saturday.

The Ward Councillor has been advised of the recommendations of this staff report.
