Toronto, ON M5H 2N2

### **Intersection Safety Review – Broadview Avenue and Chester Hill Road**

Dear Councillor Perks and Toronto and East York Community Council,

Chester Hill Road is a local road that intersects with Broadview Avenue just south of the intersection of Broadview Avenue and Mortimer Avenue. Due to increased development in the area, local residents have raised concerns about the constraints of this intersection. Safety at this location is also a primary concern as many students, cyclists and pedestrians use this intersection to cross Broadview to get to local schools or connect to local bike lanes. Ensuring that this intersection remains safe is of paramount importance.

#### **Recommendations:**

1. Transportation Services conduct an intersection traffic safety study at Broadview Avenue and Chester Hill Road and report back with recommendations to the January 2023 meeting of Toronto and East York Community Council.

Sincerely,

Paula Fletcher  
City Councillor  
Ward 14, Toronto-Danforth
