Dear Chair and Members,

**RE: Traffic Control Signals at Bloor Street West and Perth Avenue**

**BACKGROUND:**

There is a need for the installation of a traffic control signal at the intersection of Perth Avenue and Bloor Street West and this motion, as well as authorizing this traffic signal, ensures that there is coordination with the adjacent development sites that are moving forward as well as ensuring that this installation is planned in relation to any roadway and infrastructure improvements.

**RECOMMENDATIONS:**

1. City Council authorize the installation of signalized traffic control at the intersection of Perth Avenue and Bloor Street West.
2. City Council and direct that installation of the signalized traffic control be co-ordinated with the following development sites and adjacent planned roadway and infrastructure improvements:
  - a. The development of the 1423-1437 Bloor Street West site;
  - b. Bloor Street West corridor (including installation of cycling facilities) and Bloor Street West/Symington Avenue and Sterling Road intersection improvements.

To the satisfaction of the General Manager, Transportation Services.

3. City Council authorize the above-noted items be undertaken with consideration for additional future development projects and infrastructure improvements in the area, including:
  - a. The extension of Ruttan Street to the south to connect with Sterling Road;
  - b. The development of the 1439 Bloor Street West site; and
  - c. The re-alignment of Perth Avenue and installation of a cycling facilities to connect with the West Toronto Railpath.

To the satisfaction of the General Manager, Transportation Services.

4. City Council direct the General Manager, Transportation Services to take all necessary action to implement signalized traffic control at the intersection of Perth Avenue and Bloor Street West.

Thank you for your consideration.

Sincerely,

Ana Bailão  
Deputy Mayor  
Councillor, Ward 9 – Davenport
