Dear Toronto and East York Community Council:

Re: Item TE34.108 - Traffic and Safety Conditions Review - Rivertowne

This letter is request that Toronto and East York Community Council make the following amendment to the recommendations for Item [TE34.108 - Traffic and Safety Conditions Review – Rivertowne](#).

Rescind Recommendation #3:

3. Toronto and East York Community Council rescind the one-way westbound traffic only designation for Matilda Street, between Munro Street and Carroll Street.

Add Alternative Recommendation (Option 2) as stated in the report:

3. Toronto and East York Community Council make the following changes on a pilot basis, expected to be from August 2022 until December 31 2023:

- a) designate Carroll Street, between Matilda St and Doris Anderson Court., as one-way for northbound traffic only.
- b) extend the current temporary designation of Matilda Street, between Munro Street and Carroll Street, as one-way for westbound traffic only.

Further information and analysis became available after the time of the report submission that have caused staff to conclude Option 2 is preferable to Option 1 at this time. The revised recommendation allows for the preferred solution to be implemented on a trial basis. Further technical review and stakeholder consultation are expected to inform a final solution.

Yours truly,

Barbara Gray
