Dear Members of Toronto City Council,

Re: TE4.70 - Update on Metrolinx's Ontario Line Construction within the Toronto and East York District

The BOLD Coalition is a city-wide association of residents' associations and civic groups who are concerned about the impact the Ontario Line and Metrolinx will have on the communities and neighbourhoods adjacent to the new subway line. BOLD supports new public transit, but it must be done responsibly, transparently, and in consultation with Torontonians.

We are writing to express *BOLD's strong support for the recommendations of Toronto and East York Community Council, in item TE4.70*. These detailed and thorough recommendations, with timelines, are the result of significant work by TEYCC's Sub-committee on Metrolinx's Ontario Line Construction, who have addressed a range of concerns, both broad and specific.

Sincerely,

Liz Driver & Walied Khogali Ali

Co-Chairs, BOLD Community Coalition
