Dear Chair and Members of City Council:

Re: **Item PH6.2**
Recommended Official Plan Amendment No. 688
Bill 109 Implementation, Phase 3 - Recommended Official Plan and Municipal
Code Amendments respecting Site Plan Control

We are solicitors for St. Helen's Meat Packers Limited, the owner of 2-4 Union Street in the City of Toronto (the "City"). We are writing to inform you that our client objects to the recommended amendment noted above (the "Recommended OPA").

The reasons for the objection include the following:

- The Recommended OPA, which would require in-force zoning to be in place as part of a complete application for Site Plan Control, would create unnecessary delays in obtaining required approvals and the construction of new housing, in the context of an on-going shortage of housing.
- The Recommended OPA would make it harder for the City to assess the merits of proposed new developments by separating zoning and site plan considerations, and limiting the information available to the City.
- The Recommended OPA would make it harder to fully evaluate the sustainability of proposed re-zoning applications and compliance with the Toronto Green Standard, without access to the materials that would normally be submitted through site plan.

Additionally, we request that the undersigned be notified of any decision respecting the above noted matter.

Sincerely,

McCarthy Tétrault LLP
