To: Chair and Members of Etobicoke York Community Council

Re: Poll for Traffic Calming – Paulson Road, between Trethewey Drive and King Georges Drive

SUMMARY:

Paulson Road, between Trethewey Drive and King Georges Drive (to include north and south roadways), is classified as a "Local" road. The regulatory speed limit on Paulson Road is 30 km/h. The land use in the area consists of detached residential dwellings. This subject section of Paulson Road is not within a designated community safety zone and no TTC route provided.

My office has received many request from residents of Paulson Road, between Trethewey Drive and King Georges Drive (to include north and south roadways), requesting the implementation of traffic calming on their street. This motion seeks to poll eligible households for traffic calming and, subject to favourable results, approve their installation.

RECOMMENDATION:

Etobicoke York Community Council:

1. Direct the Director of Traffic Management, Transportation Services to request the City Clerk to poll eligible householders in English or any other language specified by Community Council, on Paulson Road, between Trethewey Drive and King Georges Drive (to include north and south roadways), to determine if property owners/occupants support the installation of speed humps, according to the City of Toronto Traffic Calming Policy and report to Etobicoke York Community Council in 2023 on the findings of the poll.

Sincerely,

Frances Nunziata
Toronto City Councillor
Ward 5, York South—Weston
