

Report Back on Facilities Management Services

Presented by: Patrick Matozzo, Executive Director, Corporate Real Estate Management
to General Government Committee on April 20, 2023

Approach to Facilities Management Services

Efficient and effective service delivery with standard cleaning routines across corporate facilities

Focus on health and safety, and legislative requirements

Responsive to the hybrid work model and **building occupancy levels**

City cleaning routines based on **industry standards and guidelines**

Leverage Industry Standards

Focus on health and safety requirements

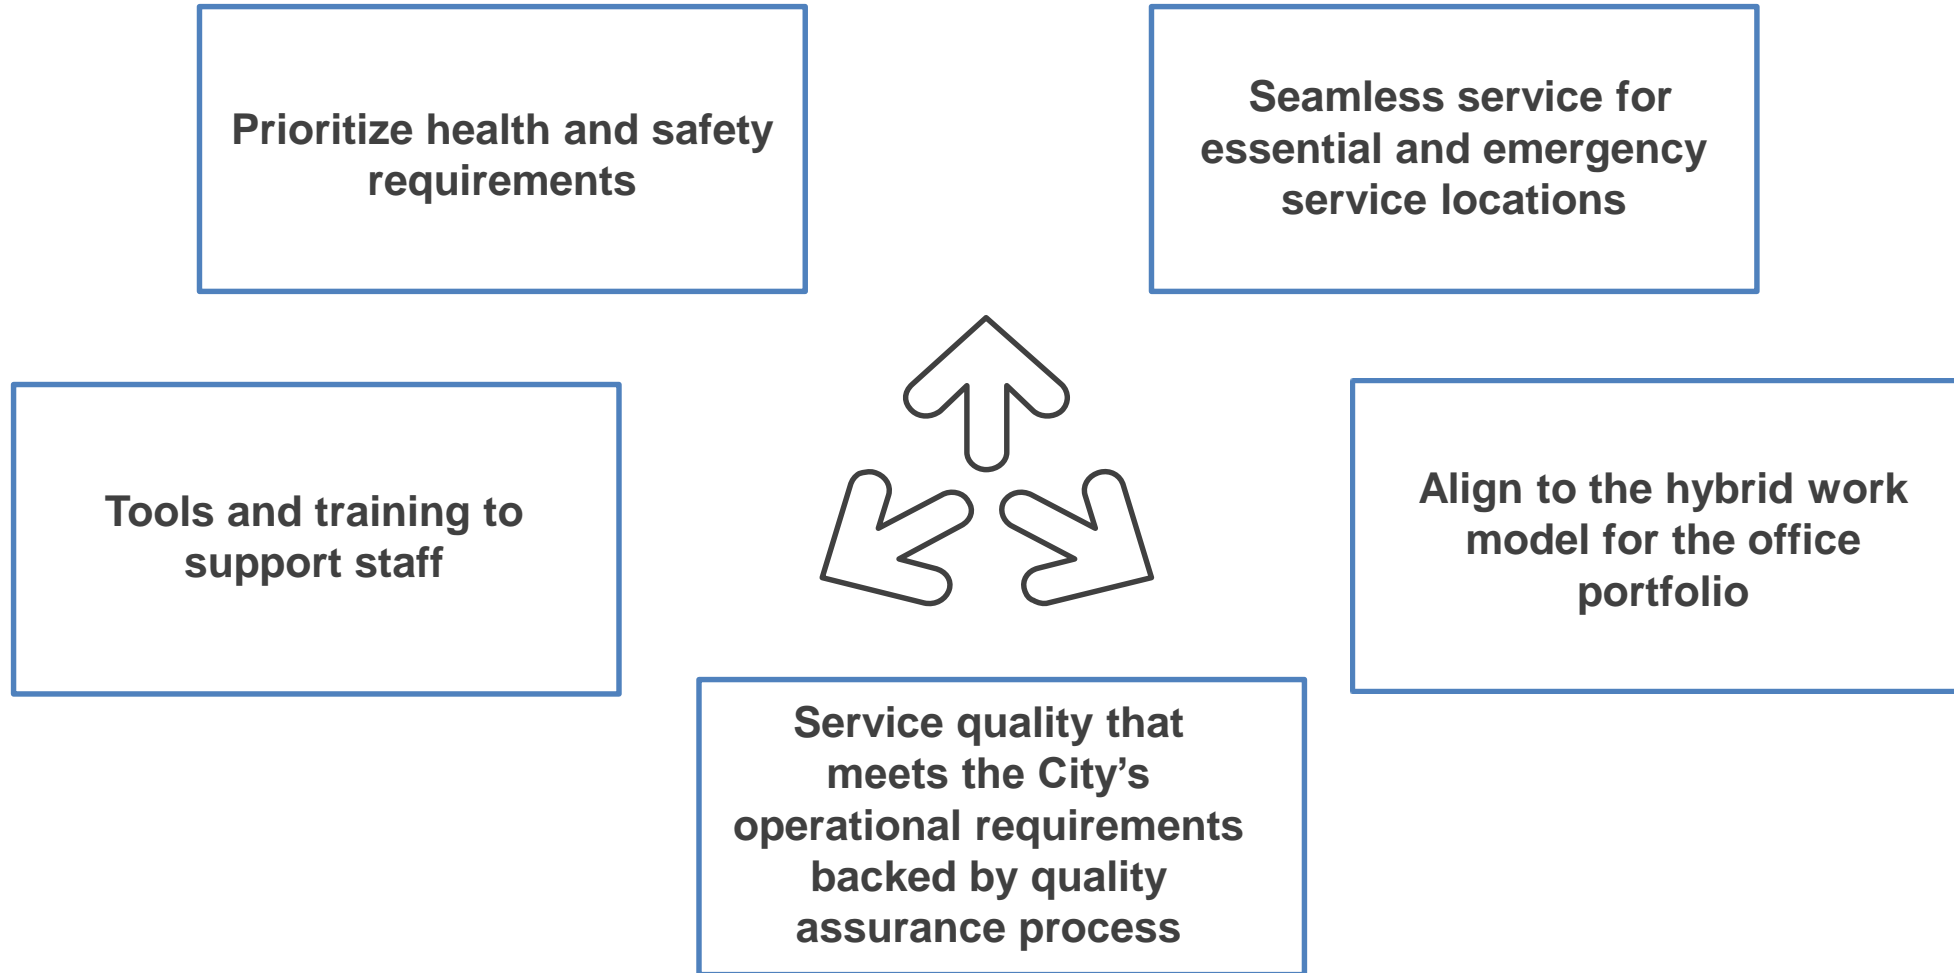

- Industry standards for cleaning routines that ensure buildings are safe and clean and that meet the operational requirements of the City.

Efficient and effective service delivery

- Standard cleaning routines across corporate facilities that improve productivity and consistent service delivery.

Benefits of work standardization

Thank You
