

Single-Space Meters - Various Locations

Date: November 15, 2023

To: Infrastructure and Environment Committee

From: General Manager, Transportation Services

Wards: Ward 2 - Etobicoke Centre, Ward 3 - Etobicoke-Lakeshore, Ward 5 - York South-Weston, Ward 6 - York Centre, Ward 8 - Eglinton Lawrence, Ward 9 - Davenport, Ward 10 - Spadina-Fort York, Ward 11 - University-Rosedale, Ward 12 - Toronto-St. Paul's, Ward 13 - Toronto-Central, Ward 14 - Toronto-Danforth, Ward 15 - Don Valley West, Ward 16 - Don Valley East, Ward 18 - Willowdale, Ward 19 - Beaches-East York, Ward 20 - Scarborough Southwest

SUMMARY

The General Manager, Transportation Services, is seeking City Council approval to decommission all of the 176 on-street single-space meters which are currently located in various Wards across the City of Toronto and accordingly delete all entries in Schedule III, Parking Meters, of the City of Toronto Municipal Code Chapter 910, Parking Machines, Parking Meters and Mobile Only Zones. Transportation Services is making this proposal after consulting with the Toronto Parking Authority (TPA) with respect to the TPA's experience with the City's on-street single-space meter paid parking program.

Single-space meters have been in operation for a number of decades; however, the equipment is at end-of-life and requires extensive maintenance to continue operation. As a result of the higher rate of machine failure, low revenue, and high operating expenses, Transportation Services is asking that single-space parking meters be removed from operation. In some single-space locations, nearby Pay and Display (P&D) machines can be used by customers in place of single-space meters, while in a select few locations P&D machines are recommended for installation in place of single-space meters to preserve the existing paid parking areas and accordingly new entries will be introduced in Schedule I, Parking Machines, of the City of Toronto Municipal Code Chapter 910, Parking Machines, Parking Meters and Mobile Only Zones. In addition, amendments to Chapter 950, Traffic and Parking will also be introduced to adjust the curbside regulations as a result of the removal of single-space meters at certain locations and introduction of P&D in others.

This is a city-wide initiative to modernize paid parking in the City by removing the high maintenance, low revenue generating single-space meters while keeping pace with modern technology.

RECOMMENDATIONS

The General Manager, Transportation Services, recommends that:

1. City Council amend Schedule III, Parking Meters, of City of Toronto Municipal Code Chapter 910, Parking Machines, Parking Meters and Mobile Only Zones, and Schedule XV: Parking for Restricted Periods, of City of Toronto Municipal Code Chapter 950, Traffic and Parking, by deleting the entries generally as listed in Attachment 1 to the report (November 15, 2023) from the General Manager, Transportation Services.
2. City Council amend Schedule I, Parking Machines, of City of Toronto Municipal Code Chapter 910, Parking Machines, Parking Meters and Mobile Only Zones, and Schedule XV: Parking for Restricted Periods, of City of Toronto Municipal Code Chapter 950, Traffic and Parking, to allow for the introduction of pay-and-display machines for the specified locations by adding the entries generally as listed in Attachment 2 to the report (November 15, 2023) from the General Manager, Transportation Services, as required.
3. City Council authorize the City Solicitor to introduce the necessary bills to give effect to City Council's decision and City Council authorize the City Solicitor to make any necessary clarifications, refinements, minor modifications, technical amendments, or by-law amendments as may be identified by the City Solicitor or the General Manager, Transportation Services, in order to give effect to City Council's decision.

FINANCIAL IMPACT

All costs associated with the removal of single-space meters and the introduction of P&D machines in place of select single-space meter locations will be assumed by the TPA.

DECISION HISTORY

This report addresses a new initiative.

COMMENTS

The City of Toronto has 176 single-space meters regulating on-street paid parking. Single-space meters are meters which allow customers to pay for their parking by inserting a coin into the meter and turning the dial of the meter immediately adjacent to the parking location. The meter will then display how long a customer has paid to park. The City introduced single-space meters as a method to charge for on-street paid parking several decades ago.

The existing single-space meters are at the end of their service life and, as a result, it is recommended that the 176 single space-meter locations be permanently removed from the on-street paid parking program for the below noted reasons.

1. Single-space meters are at end-of-life

Single-space meters are at the end of their intended serviceable life with an increasing rate of service failure. These single-space meters do not have a back-end system when a meter is broken (i.e., coin jam, dead battery), it is only discovered when a machine is physically visited. As a result, these machines could be broken for a period of time without visibility into the meters' performance or operational uptime.

Customers are also required to pay for parking using only coins. Payment options including credit cards and the Green P App, that are offered in other paid parking areas throughout the City, are not offered at these 176 locations.

2. Revenue generated does not cover operating expenses

On average, each single-space meter parking stall generates \$0.18 per day. The total revenue generated does not cover the associated operating expenses required to maintain the machines or staff's time to collect revenue from the single-space meters.

3. Low parking demand locations

These locations have low parking demand for a number of reasons, such as available free parking nearby and because they are located in a residential area. It should be noted that there are some single-space meters located within existing pay-and-display parking areas which in turn can be encompassed under those payment operations.

For the aforementioned reasons, Transportation Services proposes to amend Municipal Code Chapter 910, Schedule III (Parking Meters), to remove the 176 single-space meters from the on-street paid parking program.

To preserve paid parking near businesses, there are locations where single-space meters will be replaced with P&D machines. The locations where P&D machines are proposed to be installed are detailed in Attachment 2 of this report.

In locations where paid parking is removed, the City's statutory maximum three-hour parking regulation will apply. Transportation Services, together with the TPA, will continue to assess these locations to determine whether it makes sense to re-introduce paid parking in the future, subject to demand and feasibility.

The impacted Ward Councillors have been notified of the recommendations contained within this report.
