Dear Sirs/Mesdames:

I am writing on behalf of the De La Salle College community which is situated between Yonge Street & Avenue Road. The College has been at this site since 1931 and present in the City of Toronto since 1851.

The school community strongly supports endeavours to ensure the continued safety of all pedestrians, but especially the elderly, disabled persons and students in the neighbour along Yonge Street. It would be helpful to explore ways to ensure that traffic flow on this important thoroughfare is given some attention, it is our hope that the pilot project begun along parts on this roadway will remain in place.

Thank you very much for trying to improve the quality of life of those of us that live and work in the downtown corridor.

Best wishes.

Yours respectfully,

Brother Domenic, fsc
