RE: Agenda Item - 2023.IE5.1- Two-Stroke Engine Small Equipment: Steps to Pursue a Ban

I understand that you will consider at your meeting on June 28, 2023 options regarding the continued use of two-stroke engines in the City of Toronto.

I am very concerned about the adverse impacts of these machines on the health and safety of residents and operators alike, and on the environment of our City. Their elimination is consistent with the aims of Toronto Council that are expressed in the TransformTO Climate Change Action Strategy that was previously approved unanimously by Council. Therefore, please register my support of OPTION B, which would result in a BAN on two-stroke equipment, including gas-powered leaf blowers and related garden equipment.

Thank you.
