19. City Council direct that St. Clair Avenue West be returned to its pre-construction traffic regulations when regular Toronto Transit Commission streetcar service has resumed on St. Clair Avenue West.

### **Summary**

Due to the closure of the St. Clair Avenue West streetcar right of way, the Toronto Transit Commission is observing congestion along St. Clair Avenue West, slowing down the 512 St. Clair bus replacement service and general traffic. Toronto Transit Commission is recommending removing parking spaces and adding no stopping restrictions in strategic locations and times along St. Clair Avenue West, between Old Weston Road and Westmount Avenue, to alleviate these traffic concerns. Toronto Transit Commission has expressed that some of these locations have the potential to become dangerous for buses when there is snow accumulation without these measures being introduced.

The proposed parking removal and no stopping during peak periods would take place effective immediately, and last until regular streetcar service is resumed.

Transportation Services has consulted with Toronto Parking Authority, who assessed that the financial impact of lost revenue and operating expenses will be approximately \$40,000.00 (pre-HST).

This Motion is urgent as it enacts measures which are required to improve transit service reliability during temporary construction works, prevent damage to City and Toronto Transit Commission property, and ensure vehicle maneuverability before snow starts to fall.
