This letter is in support of the Councillor's motion.

As a resident of the City of Toronto, the announcement by the Provincial Government was made without prior notice or consultation. Most importantly there was no consultation with residents of Thorncliffe and Flemingdon Park who rely on the Centre for employment and education opportunities.

The current site is right on public transit, the new Provincial LRT line and public parkland and is an opportunity to make use of an established site already supported by public amenities.

The City of Toronto has an obligation to explore all possible means to keep the Science Centre at its current location. We ask that all Councillors across the City vote in support of this motion.

Yours sincerely,

David Reid
