North York Community Council

RE: McAdam Avenue and Groton Street (All-Way Stop Control)

Dear Chair and Members,

In May 2022, Transportation Staff conducted a study to see if an all-way stop control at the intersection of McAdam Avenue and Groton Street met the criteria required for installation. This study came back finding that the criteria were not met. However, I have recently spoken to many members of the community who are concerned about the impacts of not having an all-way stop control at this intersection on community safety in the neighbourhood. The residents have polled neighbours and found overwhelming support for the installation of an all-way stop control at this intersection. Therefore, I am requesting that all-way stop controls be installed at the intersection of McAdam Avenue and Groton Street.

RECOMMENDATIONS:

It is recommended that:

1. North York Community Council authorize an all-way stop control at the intersection of McAdam Avenue and Groton Street.

Best regards,

Councillor Mike Colle
Ward 8, Eglinton-Lawrence
