Date: October 26, 2023 10:26:11 AM

To the City Clerk:

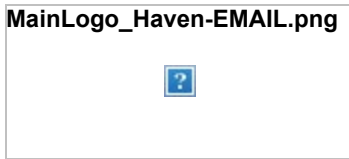

On behalf of Haven Developments, Haven Developments supports this proposed study and further believes this will be a viable solution to ensuring that more housing stock is available for the City of Toronto. In addition, this study and the anticipated positive outcome for office conversion toward residential units will ensure that the City of Toronto can foster more complete communities and there is a mix of more housing options for the communities.

We support this initiative and if you wish, we would be delighted to share our experiences with the Committee and City Staff.

Sincerely,
Daniel Teperman
