Toronto and East York Community Council
City Hall, Committee Room 1
100 Queen Street West
Toronto ON M5H 2N2

Dear Chair and Committee Members,

RE: Traffic Control Signals – Carlton Street and Homewood Avenue

Earlier this year, my office undertook a comprehensive review of traffic regulations in collaboration with the community. Through this participatory process, it was revealed that members of the community have expressed a strong desire for the implementation of traffic control signals at the intersection of Homewood Street and Carlton Street.

The installation of additional traffic controls at this pedestrian crossing will connect the Garden District by ensuring a continuous path from Homewood Avenue, through Allan Gardens, and down Pembroke Street to Moss Park. This is an important measure for our community's connectivity and safety.

RECOMMENDATIONS:

It is recommended that:

- City Council authorize the installation of traffic control signals at the intersection of Carlton Street and Homewood Avenue.

Respectfully submitted,

Chris Moise
City Councillor
Ward 13 - Toronto Centre
