Toronto and East York Community Council

Dear Chair and Council Members,

Re: Speed Humps on Wellington Street West

At the November 2021 meeting of the Toronto-East York Community Council, a traffic calming review of Wellington Street West between Strachan Avenue and Niagara Street was approved. This review was set to develop options for community engagement in consultation with the local ward Councillor.

Following the approval, residents east of Niagara Street have shared their concern with not being a part of this motion. My office has since connected with engaged residents on Wellington Street between Tecumseth and Niagara earlier this year who have requested speed humps and facilitated a survey that garnered broad support.

RECOMMENDATIONS:

It is recommended that:

1. Toronto and East York Community Council waive the polling requirement under the City's Traffic Calming Policy and authorized the installation of traffic calming (speed humps) on Wellington Street West, between Strachan Avenue and Tecumseth Street.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway to install seven speed humps on Wellington Street West, between Strachan Avenue and Tecumseth Street, generally as shown on the attached Drawings No. TC-158 and TC-159, dated September 2023 from the Director, Traffic Management, Transportation Services.

Regards,

Ausma Malik
City Councillor, Ward 10
