COMMENTS

The financial statements require the approval of the Board of Management. The audited financial statements preparation is in accordance with, and meets the standards required by, Public Sector Accounting Standard (PSAS) related to Government Not-for-Profit Organizations (NPO's). Additionally, these statements reflect the requirements of PSAS related to accounting for post-employment benefits. The impact of post-employment benefits expense is actuarially determined and is non-cash in nature. As such, they are not budgeted for as part of the financial planning process for Agencies, Boards, and Commissions.

The auditor's report related to the 2022 financial statements concludes that the statements fairly present the financial results of the Board of Management. Once approved by the Board, the financial statements and the report of the Auditor will be forwarded to the City Audit Committee and City Council for information.
